Under Lesser, B&P's pledges to the federation's annual campaign increased by 62 percent.

"We have grown exponentially over the past two years," Lesser said. He is a managing partner of Lesser, Lesser, Landy & Smith.

Yadgaroff, senior managing director at Bernstein Global Wealth Management, said, "My role is to inspire and lead others to provide opportunities for tangible actions that will benefit the Jewish community, and to enable others to become more philanthropic."

B&P is designed to involve members of the business and professional communities with the federation.
